

Electronic Share Withdrawal Instructions

Dear Bank/Broker,

To electronically return and/or transfer these shares to us, the registrar and transfer agent for this issuer, on Canada's CDSX system:

Instruct your Canadian custodian (or your Canadian clearing and settlement team) to set up a **Withdrawal Request** on **CDSX** (Canada's electronic clearing system used by CDS – the **Canadian Depository for Securities**) to **Integral Transfer Agency, CUID: ITAZ**.

ITAZ is the CUID (account number) for Integral's custodial account at the depository, CDS Clearing & Depository Services Inc. Please note that this transaction is not a trade. ITAZ is a custodial account (that's what the Z stands for) and will not be shown as valid for market trades. The method of settlement on the Canadian end should be a **Withdrawal Request** rather than a trade.

Our Settlement details are:

Place of Settlement/Safekeeping: CDSLCAAT (Canadian Depository for Securities)
Depository's BIC: CDSLCAATXXX
Delivery Agent: **ITAZ** (Integral Transfer Agency)

*Please note use the term **WITHDRAWAL REQUEST** in your instructions. Any other term will be rejected as this is not a stock trade or sale – but a return and/or transfer of shares to the issuer's registrar and transfer agent.*

Once **you** (or **your Canadian custodian**) has entered the **Withdrawal Request** on CDSX, we are able to approve it the same day.

If you are a non-Canadian bank/broker, you will need to instruct your Canadian custodian or Canadian correspondent bank to enter the **Withdrawal Request** on **CDSX** on your behalf.

If you (or **your Canadian custodian**) require assistance with this process – please **contact our Operations Department** at support@integraltransfer.com or phone (416) 623-8028 x 3.

Sincerely,

Integral Transfer Agency
